Icon Element

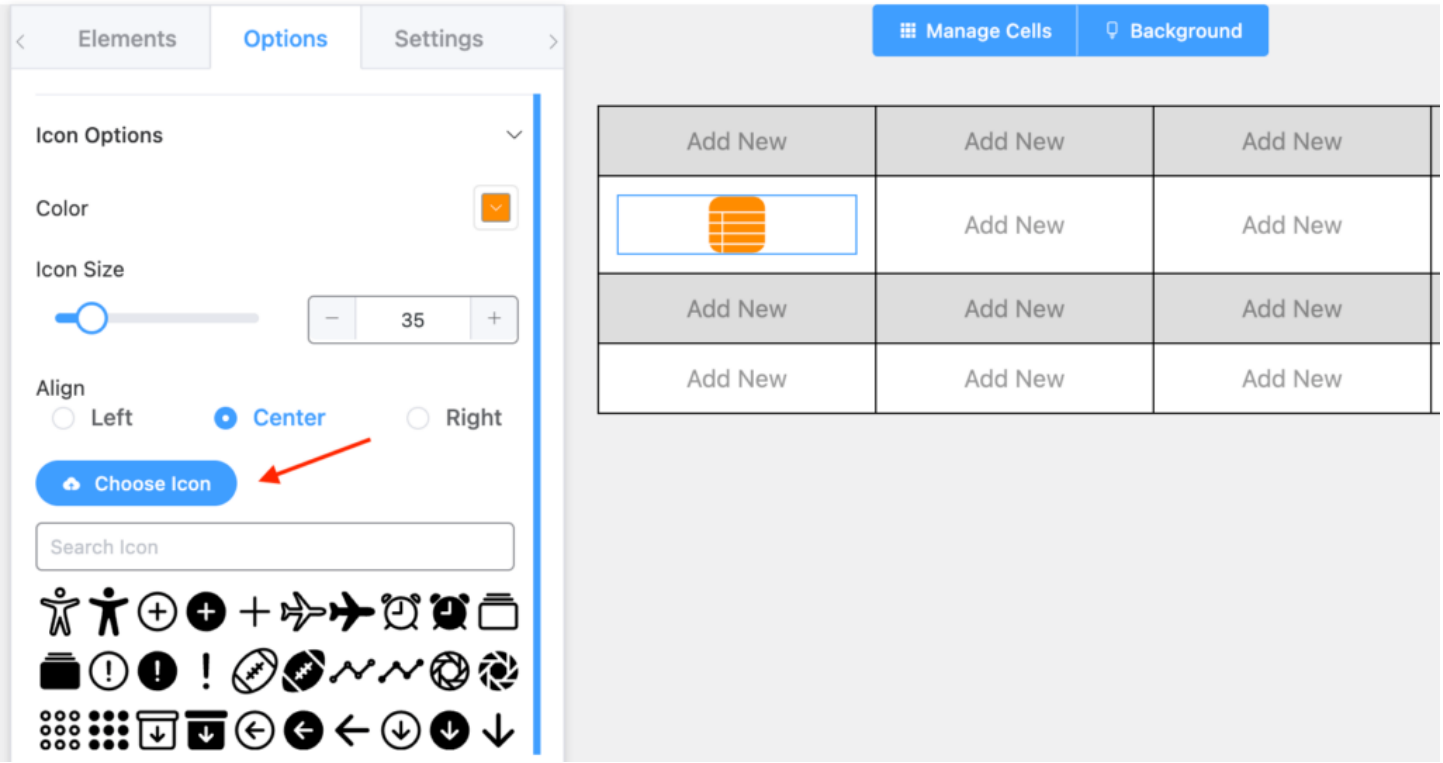

Table Elements · https://ninjatables.com/docs/icon-element/

One of the most useful elements of a table is the “Icon.” Introducing the Icon element, the powerful feature of Ninja Tables.

It allows you to add icons to your WordPress tables. This can be a great way to add visual interest to data tables and make them easier to scan.

Ninja Tables offers an “Icon” element to give your tables an eye-catching view.

Add an Icon element to Ninja Tables and customize the color, size, or anything.

Once you pick the icon element and drop it on a cell, Ninja Tables shows you a default icon of the logo. Of course, it's customizable.

Icon Element Specific Properties

1. **Color:** You can change the color of the Icon. By default, it is set to Black.
2. **Icon Size:** You can change the color of the Icon. By default, it is set to 15.
3. **Alignment:** You can align the icon to the left, right, or center. By default, it is set to Center.
4. **Choose Icon:** You can upload your own image as an icon to add to the table.
5. **Icon Library:** A library of Icons to choose from.

Conclusion

We hope this documentation helps you understand the functionality of this Drag & Drop icon element.
