# Upgrade and Activate Ninja Tables Pro License Key

Getting Started with Ninja Tables · https://ninjatables.com/docs/upgrade-to-ninja-tables-pro-add-on-and-activate-ninja-tables-pro-license-key/

Before you install Ninja Tables Pro, make sure you have the **Free Version of Ninja Tables** already installed on your site. By upgrading to the Ninja Tables Pro add-on, you can unlock all the premium features.

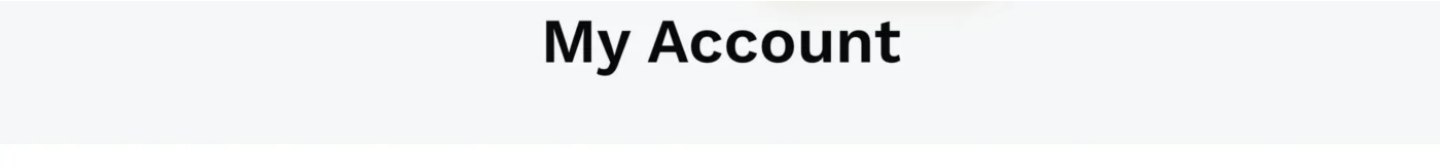

**Important:** DO NOT DEACTIVATE OR DELETE the free Ninja Tables plugin from your plugins list. The Pro add-on won't work if the Free version is removed.

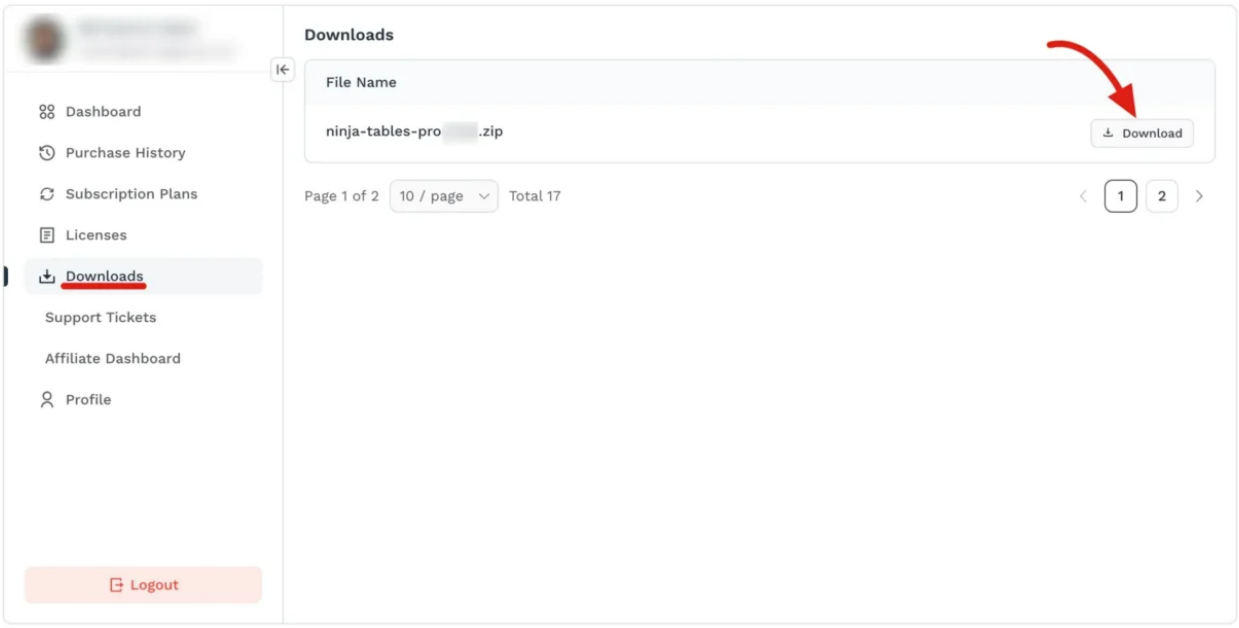

Here is how you can upgrade, install, and activate Ninja Tables Pro:

## Step 1: Download the Pro Add-on

First, go to wpmanageninja.com and log in to your account.

Once you are logged into your dashboard, navigate to the **Downloads** tab on the left sidebar. Locate your Ninja Tables Pro file and click on the **Download** button.

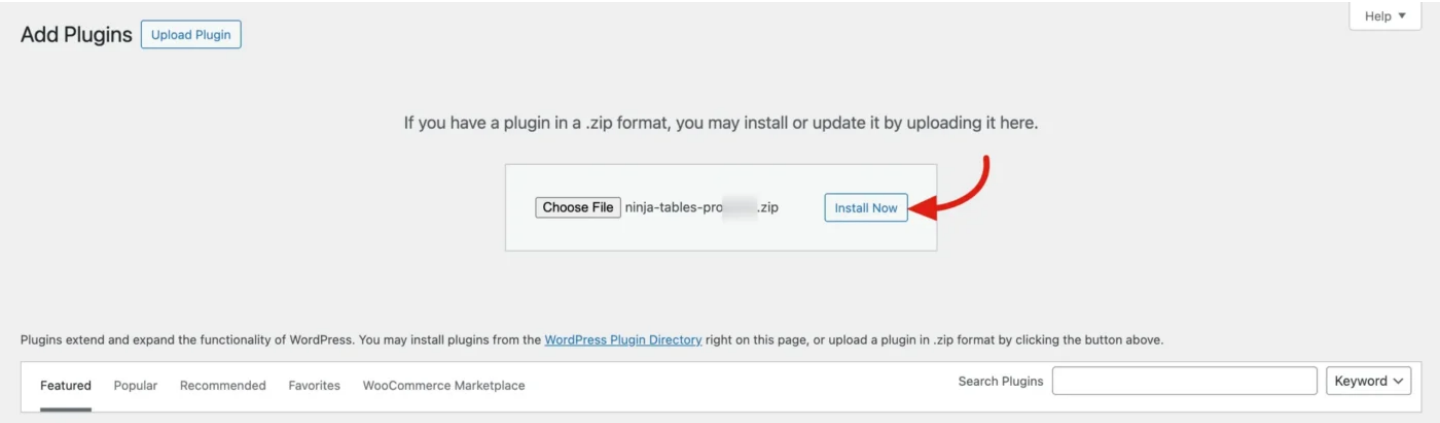

The Ninja Tables Pro Add-on will be downloaded to your computer in a .zip format.

## Step 2: Install and Activate the Plugin

Now, go to your website's WordPress Dashboard.

1. Navigate to **Plugins** → **Add New** (or **Add New Plugin**).
2. Click on the **Upload Plugin** button at the top of the page.
3. Click **Choose File** and upload the .zip file you just downloaded.
4. Click **Install Now**.

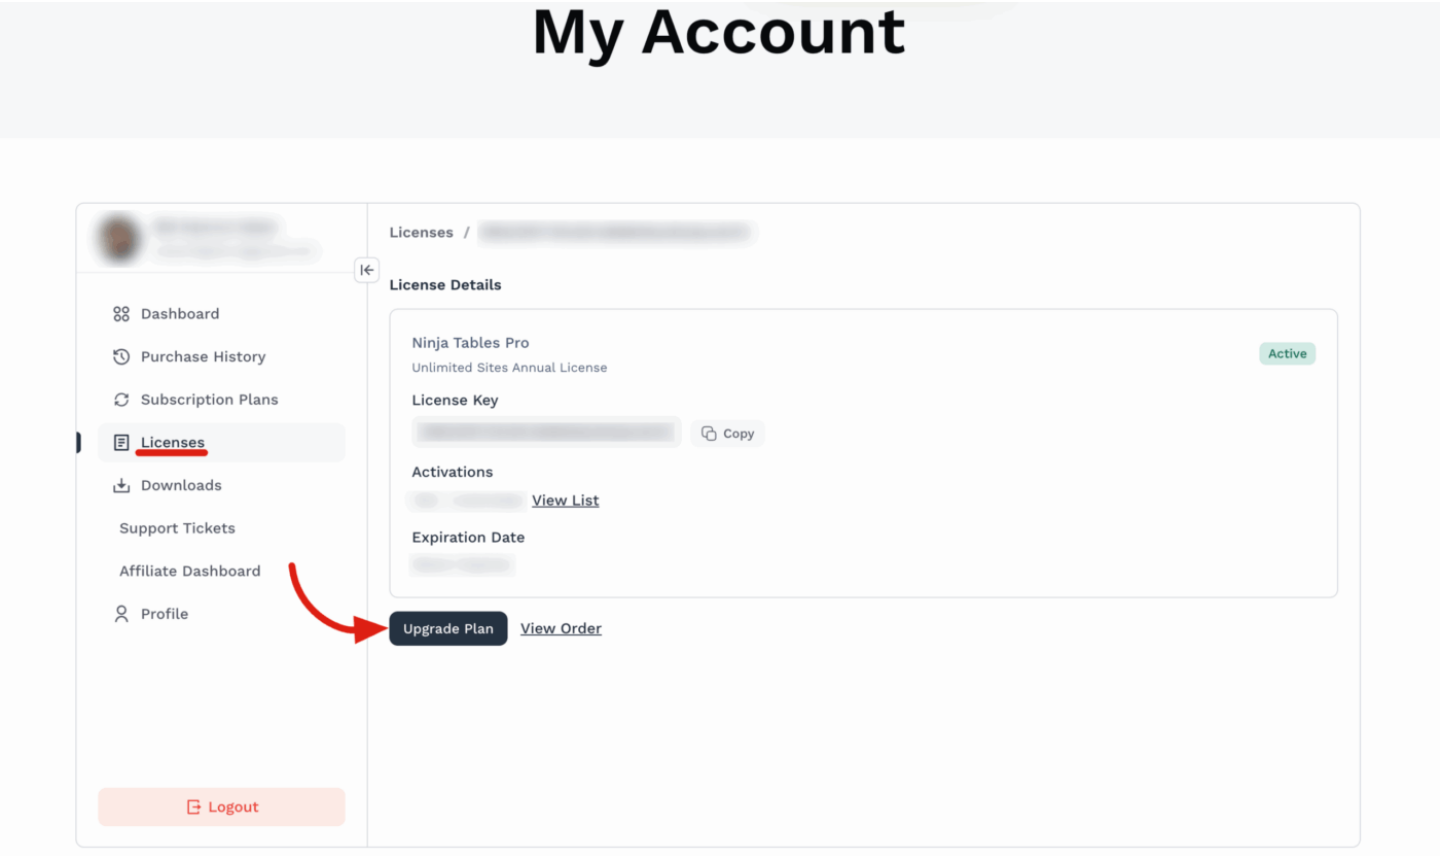

The Ninja Tables Pro add-on is successfully installed on your domain. Make sure to click **Activate Plugin** to finish the installation process.

## Step 3: Retrieve Your License Key

A License Key is required to activate and use the Pro features. You can retrieve the license you purchased directly from your WPManageNinja dashboard.

Go back to your WPManageNinja account and click on the **Licenses** tab. You will see your active Ninja Tables Pro license listed here. Click directly on the hidden license string to copy it to your clipboard.

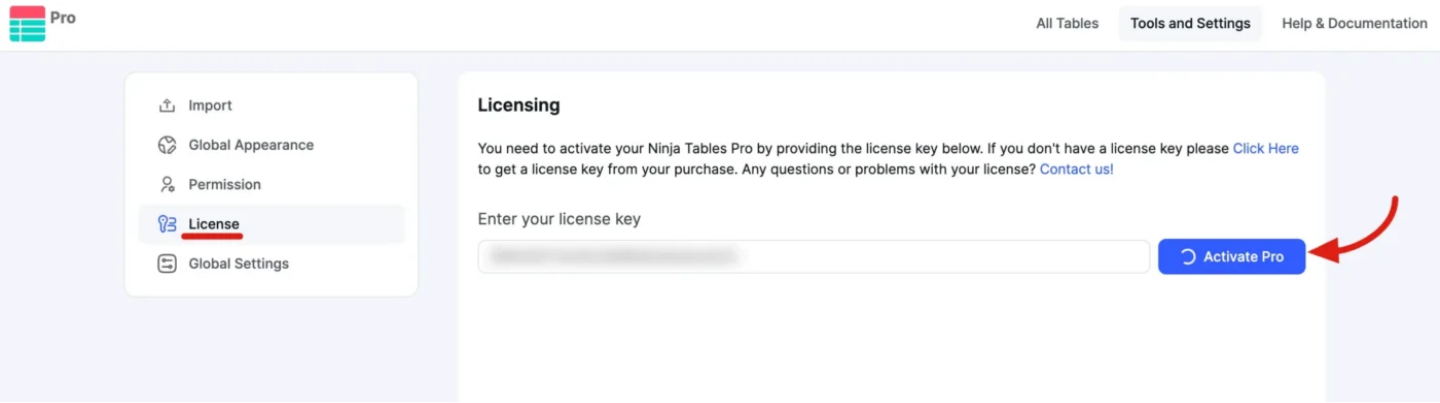

**Note:** If you ever need to upgrade your current subscription (for example, from a Single Site to an Unlimited Sites license), you can click on the license to view its details and click the **Upgrade Plan** button.

## Step 4: Activate Ninja Tables Pro

Go back to your WordPress Dashboard to apply the license key.

1. Go to **Ninja Tables** and click on **Tools and Settings** in the top right corner.
2. From the left sidebar menu, click on the **License** tab.
3. Paste the key you copied into the **Enter your license key** input field.
4. Click on the **Activate Pro** button.

That's it! Now you can enjoy all the awesome Premium features of the Ninja Tables Pro Add-on.
